Mark your calendar from the 15th to 17th of June 2022,
where we will take part in this year's 3daysofdesign.

During the three days, you can experience a very special version of our Scandinavian design universe with large, beautiful flower installations and an exclusive preview of new designs from our AW22 collection.

You can also create a beautiful bouquet in our Flower Workshop with Poppykalas, experience a live DJ Sofa Session, watch the beautiful paper braid on our Cord sideboard be created by hand, have freshly brewed morning coffee served by the talented coffee artists from La Cabra, hear Inspiring Talks with a line-up of creative enthusiasts from their respective industries within lifestyle and design - and much, much more.

We hope to see you!
